ICT Careers Program.

School Name: COLYTON HIGH SCHOOLTRADE SCHOOL

STW Coordinator: S HARMAN

	School Initiative
Key Result Area connection (background)	**EXPLORING CAREER FUTURES** The aims are: • To provide ICT support for all students to access current career information • Provide up to date careers information for students • Build up student confidence to access career information through immersing them in the school to work process • Provide students with opportunities to explore and experience different career pathways
Initiative outline	• Year 10 students will participate in subject workshops to provide them with further information re: career pathways • This will enhance the work already undertaken through our extensive school to work program • Students will actively participate in lessons in subjects as yet unknown to them
Who supports and organises implementation?	• School To Work Coordinator / Head Teacher Vocational Education / Head Teachers Faculties • Guest speakers especially, motivational speakers and ex students who are able to convey the message “at Colyton you can achieve if you believe”
Highlight student and/or school outcomes	• Better decision making in terms of pathways available to them thus giving a greater chance of success • More incisive information available to students prior to subject selection for the senior school
2008 Enhancements	• Students should make more realistic subject choices thus minimising the risk of failure • Improved retention rate of gifted and talented students
2008 Financial allocation being applied for (budget)	• Administration costs @ $150 (partial subsidy of teacher relief for one day • Money for guest speaker@ $350
